

No Stress, Just Success: Confident FCC Inspections

Date

May 14, 2026

Virtual - Free

Time

7:00 - 8:30 PM EST

1.5 ECE-TRIS Credit

Staying on top of regulations while running a family child care program can feel overwhelming, but it doesn't have to be. In this interactive 1.5-hour Zoom training, participants will explore practical, realistic strategies for meeting Kentucky's family child care regulations with confidence and ease. Together, we will review the most common deficiencies identified during inspections and break them down into manageable, everyday practices that help prevent them before they happen.

This session focuses on building simple, sustainable organizational systems that fit into your daily routine. Participants will leave with tools, tips, and ideas to stay organized, reduce stress, and feel prepared for visits at any time. Whether you're new to family child care or have years of experience, this training will help you feel more confident, prepared, and in control of your program.
